ASIL was founded in 1906 with the purpose of educating and engaging the public in international law. With 4,500 members from more than 100 countries it brings together the ever-widening circle of professionals through news and studies, by organising conferences, meetings and research groups, and arranging local networks and issue-specific groups.

**ANZSIL**  
Australian and New Zealand Society of International Law

ANZSIL was established in 1992. Its secretariat is based at the Centre for International and Public Law at the Australian National University in Canberra. The aims of ANZSIL include providing a forum for the discussion of research and practice in international law and increasing public awareness of international law. This is the eighth annual conference organised by the Society.

The Centre for International and Public Law is part of the Faculty of Law of the Australian National University in Canberra. Its primary focus is on the relationship between governments, and between governments and their citizens, from both a domestic and an international perspective.
